Laboratory Manual-06

for

Fundamentals of Big Data Lab

Course Instructor Dr Iqra Safdar
Lab Instructors: Rida Mahmood , Mr. Muhammad Mazarib
Section: BDS-4A
Date: 06-Mar-2023
Semester: Spring 2023

Department of Computer Science

FAST-NU, Lahore, Pakistan

- Run built-in agglomerative clustering, k-means clustering, DBScan algorithm on attached dataset.
- Compare which algorithm is giving better clusters and determine cluster size + number of clusters in each case.
- Run your own implemented stated algorithms on the same dataset and analyze the results.
- Compare which algorithm is giving better clusters and determine cluster size + number of clusters in each case.
